

Balanced Equity Portfolio

April 2016

Investment objective

This is a balanced investment portfolio focused on capital growth over a minimum investment period of five years. It has less risk when compared to a pure equity portfolio in that it offers a certain measure of capital protection. The portfolio follows an actively managed multi-asset investment strategy that incorporates passive investments such as exchange traded funds and index funds exposed to the main asset classes in the local and global markets. The portfolio aims to outperform the average South African balanced portfolio collective investment scheme's return on investment.

Investment profile

- Investors who have a longer investment term (in excess of 5 years)
- Value-based investors with a high risk tolerance
- The individual is comfortable with inherent volatility of equities
